

Bonding for MATOCs (Multiple Award Task Order Contracts):

A question was asked about how the bonding would work for a MATOC. Our plan is to require a bond for the amount of the “bid project” (the project that prices are submitted for and that will become the first task order). Those contract holders that do not get the first task order will have their bonds returned.

We will also require a letter from your bonding company that states that you have bonding capacity up to \$XX. The solicitation will contain the details and will specify what the dollar amount is. (It will be what we think the maximum task order dollar amount will be). We will not require a bond for the full IDIQ contract amount or term.

Website updates:

We plan to add a link to bidders questions and our responses for jobs on ad. We are trying to get it up and running by April 21, 2006.

We plan to post a schedule of upcoming work. It most likely will take the form of the Future Program that was handed out at the March 30, 2006 Contractor’s Conference. The final format has not been decided.

Any comments on the website can be directed to the Procurement Contact information e-mail (contracts@mail.wfl.fhwa.dot.gov).
